

Soft winding specification:

- Finished package diameter: 160mm
- Finished package weight: 1kg
- Target package density: 0.3-0.35 gm/cm³ for cotton and for polyester 0.35-0.40gm/cm³
- Winding speed: 1000m/min (Max)

Hard winder:

- Finished package dimensions: Package diameter top- 150mm, Package diameter bottom- 180mm, Package height- 155mm.

- Package weight: 1kg
- Target hardness/density: 0.40-.050gm/ cm³
- Winding speed: 1000m/min (Max)

Sewing threads:

- Thread length/weight: 4000m/100gm (Yarn count 50/2 spun)
- Required winding speed: 1400rpm (Max)
- Required tension: Yes Required
- Automatic doffing/feeding requirements: Yes Required
